THE CUNEIFORM TEXTS.

[All Rights Reserved.]
Preface.

The following eighty-five plates contain a large and typical selection of texts copied from the astrological reports of the Kouyunjik Collection preserved in the British Museum. They have been printed in cuneiform characters which represent with considerable success the original script of the tablets, both Babylonian and Assyrian. They deal with the phases and appearances of the Moon on the days of the various months throughout the year; the rising and setting of the planets, and of the stars which form the signs of the Zodiac; observations concerning eclipses, halos, parhelia, etc., and remarks on earthquakes and storms, and the probabilities of fine or bad weather.

With the view of meeting the wishes of students and others, the cuneiform texts have been issued in a
separate volume, and it is thought that this arrange-
ment will make them more convenient for purposes of
study.

A descriptive and classified list of all the
Astrological Reports given in this volume is here
appended.
